

# Fund our Contracts and Public Services

*We'll look up your district using your home address and get your story to your elected official.*

**No workforce has more at stake in the decisions made by elected officials than public employees.**

Big decisions about staffing, our working conditions, and our pay will be made by our representatives this legislative session. There is serious opposition to funding our 2025-27 raises.

We need to help our elected officials understand that voting to fund our contract is about fixing years of understaffing, ensuring our state can attract and retain the best public employees, and making vital services available to all Washingtonians.

Share what what a fully funded contract would mean for your job and the people who depend on it. Your story is important!
