

At Department of Corrections' Reentry Centers, WFSE members help incarcerated individuals make the jump from life in prison to lives in our communities. They give people a second chance and a real shot at a successful life after incarceration. Two DOC Reentry Centers, Bellingham and Ahtanum View (Yakima), are slated to close in Gov. Inslee's proposed 2025 operating budget.

These facilities are effective, they save money, and they change people's lives. The need for community supervision is increasing. Tell legislators to focus on maintaining and modernizing these vital facilities instead of closing them.
