

OUR STRONG CONTRACT STARTS NOW!

COMMUNITY ENGAGEMENT STATEWIDE ON MAY 30TH

Join members statewide as we ask local businesses to put up signs and window clings to show they're behind us.

The people who will suffer the most from tens of billions of dollars in Medicaid cuts beginning in 2027 will increasingly depend on our work. These negotiations will determine if our safety net can support them or not.

The numbers are clear. When public workers do well, our communities do too.

We'll take pictures with supporting businesses and take out ads in local papers and online thanking them for helping us hold the line for public services.

As our campaign escalates this summer and when we go to Olympia to fund our contract, our employers and elected officials will know our communities are with us.
