TIPS AND REMINDERS

Our goal is to make it easy for the person picking up the phone to pass along a simple message: another WFSE member called demanding a fair contract.

Be kind to the state employees picking up the phone calls, and never use threatening language toward them or any elected official.

Help spread out phone calls! To maximize our impact and the number of messages that get through, try to call at the suggested time below based on your birth month. Only a suggestion – call when you can!
