

Help Save Rainier and Yakima Valley Schools

The proposed closures of Yakima Valley School and Rainier School would be disastrous for the vulnerable Washingtonians who reside and are cared for there.

We need to call on legislators to reject these proposed closures and instead focus on maintaining and modernizing these vital facilities. Yakima Valley School and Rainier School represent a commitment to Washington's most vulnerable citizens—a promise that must not be broken.

Your elected officials have a choice. They can keep vital facilities open by asking the wealthiest pay their fair share, or they can let the budget downturn fall on our friends, neighbors and family members with developmental and intellectual disabilities. They need to hear from you. Reach out directly with the link below and add your own message for the greatest impact.

Write a letter today in support of these critical facilities!
